Proper Glove Doff-OFF

Solutions/Recovery

Dermatitis:

What is it and how does it affect you?

Contact Dermatitis is a red, itchy rash caused by direct contact with a **substance** or an **allergic reaction** to it. ...Many substances can cause such reactions, including **soaps, alcohol**, cosmetics, fragrances, jewelry and plants.

In 2018*,

-**25,000 recordable** skin diseases were reported by the Bureau of Labor Statistics (BLS)

-Rate of **2.2 injuries per 10,000 employees**,

-Compared to **19,600 respiratory illnesses** with a rate of **1.7 illnesses per 10,000 employees**.

Glove Based Dermatitis

Glove Caused Dermatitis:

Nitrile (rare): Hives, Swelling, **Cracks**

Latex: Protein Allergies

Perspiration: Changes PH

Urticaria which is a simple skin irritation caused by perspiration and lack of ventilation inside the glove.

PH: All gloves change your PH.

Solutions and Recovery

Glove Solutions:

Better Gloves can Help Dermatitis

Dry Core™
Naturally pulls sweat away from the skin for healthier hands.
Moisture-wicking system makes for a dry, comfortable environment.

Available in these popular styles:

PowerForm
PF-085-095-DCO-BL

DriTek®
Moisture-wicking flock-lined system for drier, cooler, more comfortable hands.
Naturally manages sweat for healthier hands and easy donning and doffing.

Available in these popular styles:

PowerForm
PF-088-095-DRK/ECO-GY

MegaMan
MM-128-110-DRK-BK
MM-128-110-DRK/NRG-HVGR

SW® HAND HEALTH TECHNOLOGIES

EnerGel™
Hydrates and rejuvenates hands for all-day comfort.
New patented additive clinically proven to improve hand health.

Available in these popular styles:

PowerForm
PF-065-095-NRG-LG
PF-065-095-NRG/ECO/BAL-GR/WT

MegaMan
MM-128-110-DRK/NRG-HVGR

TrueForm
TF-050-095-DRK/ECO-BL

pH Natural®
Actively maintains skin pH at natural levels to reduce skin issues.
Proprietary coating helps keep pH levels at 5.5, reducing microbial growth.

Available in these popular styles:

TrueForm
TF-051-095-PHN-BL

**The best barrier to occupational irritant contact dermatitis
is healthy skin.**

Is cold winter weather and extra hand washing drying out your hands?

- Winter weather can damage your skin's natural barrier, allowing moisture to escape, and leaving your hands dry, and cracked.
- Given the current COVID-19 climate, we know that vigilant handwashing and hand care will continue to be top of mind through 2021 and beyond.
- O'Keeffe's Working Hands® is the perfect tool to promote hand health and lock in moisture – protecting your hands and providing guaranteed relief.

O'Keeffe's Working Hands

Creates a protective layer on the skin's surface

Instantly boosts moisture levels

Helps prevent moisture loss

- ✓ Non-Greasy and Unscented
- ✓ Hypoallergenic
- ✓ Safe for Diabetics' skin

O'Keeffe's Working Hands is Designed to Fix Skin Problems that Negatively Impact Your Day

- Specifically formulated for the most extreme skin conditions such as cracking, peeling, or flaking.
- Working Hands contains high concentrations of glycerin, which helps draw in and retain moisture.
- Working Hands is NOT scented, beauty focused, greasy, or watered down.
